Please be advised that Indian and Northern Affairs Canada (INAC) has completed a review of Defence Construction Canada Type “B” Water License 2008 Annual Report for the CAM-1 (Jenny Lind Island) Dew Line Site. The NWB circulated the Report for information purposes only, on April 16, 2009. All associated documents related to this license posted on your ftp site under 1BR-JEN were included in my review (see attached Technical Review Memo).

The 2008 Annual Report satisfactorily addressed all of the requirements of Part B, Item 1 of the current water licence #1BR-JEN0712.

However it was noted during the review that as a result of an inspection carried out by a Water Resources Officer on July 30, 2008, DCC was provided 30 days to address a number of deficiencies.

On August 29, 2009 Defence Construction Canada submitted a report to INAC Water Resources Officer, Melissa Joy on August 29, 2008 indicating that these deficiencies had been addressed.

It is therefore recommended that a follow up inspection be scheduled during the 2009 field season.
