To: "Alam, Shah" <SAlam@gov.nu.ca>

Cc: Licensing Department <licensing@nwb-oen.ca>

Good morning Shah,

Thank you for your prompt response to the comments. I have just a couple more quick questions for you.

The 2017 annual report mentions spraying with water as one of the measures being considered in the landfarm operation. Is there an additional water source required for this activity or do you find runoff water sufficient?

The previous licence lists conditions in Part E, Item 1 and Part H, Item 1 requiring updated O&M and spill plans. We understand that a commitment was made in regards to the submission of the O&M plan update in July 2019 - can the same be applied to the spill plan update?

Is an activated carbon water treatment unit (defined in the previous licence as "Water Treatment Facilities") available and are you looking to keep it included in the licence?

Thank you,
Assol
