**Re: Application exempt from Screening pursuant to Section 12.4.3 of the NLCA: Defense Construction Canada's "FOX-2, Longstaff Bluff DEW Line Site Clean-up" project**

Dear Jeff Mercer:

On January 17, 2011 the Nunavut Impact Review Board (NIRB or Board) received an application from Indian and Northern Affairs Canada (INAC) for return of quarry permits and issuance of a new quarry permit associated with INAC Land Use Permit N2007X0035 for Defense Construction Canada's "FOX-2, Longstaff Bluff DEW Line Site Clean-up" project.

Please be advised that the original project proposal (NIRB File No.: 07DN066) was received by the NIRB from INAC on September 4, 2007 and was screened in accordance with Part 4, Article 12 of the Nunavut Land Claims Agreement (NLCA). On October 19, 2007 the NIRB issued the enclosed NLCA 12.4.4(a) screening decision to the Minister of INAC indicating the proposed project could proceed subject to NIRB's recommended project-specific terms and conditions.

Additional authorization and extension applications for INAC Land Use Permit N2007X0035 associated with this project have also been reviewed by the NIRB following screening of the original project proposal. In each instance the NIRB confirmed that the applications were exempt from further screening pursuant to Section 12.4.3 of the NLCA and the activities therein remained subject to the terms and conditions recommended in the original October 19, 2007 Screening Decision Report.

Authorization	Application			Correspondence Issued by NIRB
	Date Received by NIRB	Type	Reason for Application	
Quarry Permit	January 7, 2009	New permit	Required by the project	January 12, 2009
Land Use Permit	September 15, 2009	Extension	Continue remediation	September 22, 2009
Land Use Permit	September 22, 2010	Extension	Continue remediation	September 28, 2010

The current INAC application, the original NIRB Screening Decision Report (07DN066) and related file information are available from the NIRB's ftp site at the following link: <http://ftp.nirb.ca/01-SCREENINGS/COMPLETED%20SCREENINGS/2007/07DN066-DCC%20-%20FOX-2/>

#### PREVIOUSLY-SCREENED PROJECT PROPOSAL:

As previously screened by the NIRB (File No. 07DN066), Defence Construction Canada's "FOX-2, Longstaff Bluff DEW Line Site Clean-up" project was located within the Qikiqtaaluk region, approximately 245 kilometres (km) from the community of Hall Beach. The Proponent indicated that it intended to conduct remediation activities each year during the summer field season (June to October) from 2008 to 2012.

The activities/components associated with this proposal included:

- Construction and operation of temporary and seasonal camp
- Demolition of existing facilities
- Remediation of the existing landfills
- Construction of two new landfills
- Excavation of contaminated soils
- Removal of surface debris around the site
- Land farming operation
- Grading and restoration of the site

#### CURRENT APPLICATION:

Defence Construction Canada is currently proposing to return the previous quarry permits and to obtain a new quarry permit in support of the ongoing clean-up and remediation of the Project associated with Land Use Permit N2007X0035.

Please note that Section 12.4.3 of the NLCA states that:

*"Any application for a component or activity of a project proposal that has been permitted to proceed in accordance with these provisions shall be exempt from the requirement for screening by NIRB unless:*

*(a) such component or activity was not part of the original project proposal; or*

*(b) its inclusion would significantly modify the project."*

After completing a review of the information provided in support of the current application, the NIRB is of the understanding that the proposed extension does not change the general scope of the original project activities, and the exceptions noted in NLCA 12.4.3(a) and (b) do not apply. Therefore, this application is exempt from screening as per Section 12.4.3 of the NLCA and the activities therein remain subject to the terms and conditions recommended in the original October 19, 2007 Screening Decision Report (enclosed).

If you have any questions or require clarification, please contact Li Wan, Technical Advisor, at (867) 983-4606 or [liwan@nirb.ca](mailto:liwan@nirb.ca).

Sincerely,
