Subject: Defence Construction Canada; Submission of the 2003, 2004 and 2005 Annual Reports for the FOX-2 Longstaff Bluff DEW Line Site; Licence 1BR-LON0308

Dear Ms. Schultz;

The Nunavut Water Board ("NWB") acknowledges the receipt of the above documents under Part B, Item 1 of Licence No. 1BR-LON0308. The annual reports were distributed upon receipt for review and comment to interested persons.

The technical review of the 2003, 2004 and 2005 annual reports has been completed. Comments on the 2004 report were received from INAC. Comments on the 2003 report were received from INAC and EC. All comments should be reviewed by the licensee. The Board has taken into consideration the information submitted and hereby accepts the 2003, 2004 and 2005 annual reports. During the technical review it was noted that the annual reports were incomplete. The 2003 and 2005 annual reports should have identified:

1. The coordinates where all wastes, including greywater, is disposed of;
2. The coordinates where all water used for any purpose is taken from.

The proponent shall include the aforementioned missing information in all future annual reports. It was also noted during the technical review that the 2006 and 2007 annual reports have not been received by the NWB. The Licensee shall, within thirty (30) days of the date of this letter, submit to the NWB the outstanding annual reports.

Should you have any further questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Deon Bridge
Technical Advisor
