Hi Eva,

I was just reviewing the Post-Construction Monitoring Program for “FOX-2, Longstaff Bluff DEW Line Site, Qikiqtani Region, Nunavut” Licence No. 1BR-LON0813, and I will need some additional information.

- The Program does not provide the Guidelines levels that will be used for comparison with sample values. No information is provided for the monitoring locations either (at least possible locations).

Could you please provide this information as soon as possible?

Regards,

Karen Kharatyan, Ph.D
