Thank you for your responses Cynthia.

I do have one further question regarding the application process as I am new to NUPPAA. Does Subsection 75(5) of the NuPPAA not apply in this case? And if not, why is that? While the modification to the project may be considered 'significant', it is a significant reduction to the scope of the project, which significantly reduces potential impacts to the environment. In fact, the new scope of the licence would no longer fit within the description of a 'project' under Section 2(1) of NUPPAA so I'm confused why an assessment is required? Please advise.

Thank you,

Jean
