The GN-CGS application and the original NIRB screening file, 07DN027 are available from the NIRB's ftp site at the following link:
http://ftp.nirb.ca/SCREENINGS/COMPLETED%20SCREENINGS/ARCHIVE/2007_SCREENINGS/07DN027-INAC%20-%20Cape%20Christian/1-SCREENING/ .

Please note that Section 12.4.3 of the NLCA states that:

“Any application for a component or activity of a project proposal that has been permitted to proceed in accordance with these provisions shall be exempt from the requirement for screening by NIRB unless:

(a) such component or activity was not part of the original project proposal; or

(b) its inclusion would significantly modify the project.”

The NIRB is of the opinion that the request for the both the amendment and extension is not likely to *significantly* change the general scope of the original project activities. Therefore the NIRB is *proposing* to re-issue the same terms and conditions as those in the enclosed June 7, 2007 Screening Decision, along with any new terms and conditions the NIRB considers appropriate. The NIRB is copying Parties and municipalities potentially affected by this project and we invite interested persons to comment directly to the NIRB by **August 13, 2010**.

The NIRB would like Parties to provide comments regarding:

- whether the proposed component or activity was a part of the original proposal;
- whether its inclusion would significantly modify the project;
- any additional mitigation measures that are appropriate; and
- any other matter of importance to the Party related to the project proposal.

Please send your comments directly to the NIRB at info@nirb.ca or via fax to **(867) 983-2594**.

If you have any questions or concerns, please do not hesitate to contact me at kgillard@nirb.ca or by phone (867) 983-4619.
