Subject: Summary Report Requirement NWB5MAC0204

Dear Mr. Warren:

The Nunavut Water Board (NWB) has reviewed the "Summary Report for Water License No. NWB5MAC0204" submitted on your behalf by the UMA Engineering Ltd. to the Board on September 20, 2004 in accordance with Part B, Item 1 of your water licence. The NWB herein conditionally approves the Summary Report and thanks Defence Construction Canada for their submission.

It was noted following the review of the Summary Report submitted that additional information is required by the NWB, in relation to your CAM-4 (Mackar Inlet) operations. The Summary Report does not indicate the daily water usage, as required by Part B, Item 1 (i) of water license NWB5MAC0204. Additionally, an executive summary of the Summary Report in both English and Inuktitut, as required by Item 5 of the *General Conditions for the Administration of Licenses Issued by the Nunavut Water Board (NWB)* was not provided. The Licensee is herein requested to submit this information to the NWB, as an addendum to the approved Summary Report.

Please contact the undersigned at (867) 360-6338 or e-mail Jim Wall (Technical Advisor, Municipal) at tech1@nwb.nunavut.ca if you have any questions.

Sincerely,

Original Signed By:

Dionne Filiatrault
