Anita Gudmundson
Regional Manager, Prairie and Northern Region
Transport Canada, Environmental Affairs
Anita.champagnegudmundson@tc.gc.ca

Dear Ms. Gudmundson,

Re: Notice of Upcoming Remedial Actions at Former Iqaluit Metal Dump

Thank you for the information on the upcoming remediation of the Iqaluit Airport lands. We appreciate Transport Canada's efforts in addressing these legacy sites, and are looking forward to the time when this land can be returned to productive use.

On a broader note, I would like to commend the manner in which Prairie and Northern Region has been able to coordinate common sense solutions in conjunction with the Iqaluit Airport project. I believe those measures have benefitted the project as a whole, and have likely streamlined Transport Canada's efforts in cleaning up the airport.

I expect that some level of coordination with the airport authority will be required through the course of this upcoming work, and encourage you to keep John Hawkins, the Airport Director, informed of your plans and progress as it moves forward.

Once again, thank you for this information.

Sincerely,

Sherri Rowe

Deputy Minister
