Re: New Application Acknowledgement for the Metal Dump Remediation Project

Dear Mr. Molinski:

The Nunavut Water Board ("NWB") acknowledges receipt on June 1, 2010 of your new water license application for the Metal Dump Remediation Project, file number 1BR-MDR----.

We undertook a preliminary administrative review of your application and conclude that, in accordance with approved legislation under the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada* ("NLCA"), it does not contain sufficient information for the NWB to commence processing the file at this time. Specifically, we are asking you to provide the following:

- A Spill Contingency Plan (SCP);
- A Remediation Action Plan;
- Details on whether any contaminated soil will be transported to a landfill facility away from the site being remediated;
- Confirmation on whether the access ramp/road to base of dump involves any river crossing; and
- Specific details on what the long-term monitoring program will entail.
- Signed application signature page
- NIRB Screening Decision (or confirmation in writing that a NIRB screening is not required)
- NPC Conformity (or confirmation in writing that an NPC Conformity is not required)

We will resume the processing of your application once we receive the requested information.

Please call the undersigned at (867) 360-6338 or email at licensingadmin@nunavutwaterboard.org if you have any questions.

Sincerely,

Original signed by:

Richard Dwyer
Licensing Administrator
