**RE: NWB Technical Review of 2017 and 2018 Annual Report for the Former Iqaluit Metal Dump Remediation Project; Water Licence No. 1BR-MDR1721**

---

Dear Ms. Barker,

The Nunavut Water Board (NWB) has completed a technical review of the 2017 and 2018 Annual Reports.

On May 01, 2018 and April 01, 2019, the NWB acknowledged receipt of the Annual Reports for the year 2017 and 2018 respectively, and provided them to the Qikiqtani distribution list for information. No comments have been received to date.

The NWB notes that approximately 100 litres (0.1m<sup>3</sup>) of water was used during the 2018 field program for environmental surface water sampling. No other water was used, diverted or modified.

The technical review of the Annual Report found that the information addresses the requirements of the Licence.

Should you have any questions, please feel free to contact the undersigned, at (867) 360-6338 (extension 33) or [ali.shaikh@nwb-oen.ca](mailto:ali.shaikh@nwb-oen.ca), at your earliest convenience.

Sincerely,

A handwritten signature in black ink, appearing to read 'mali', with a horizontal line underneath and two dots below the line.

---

Mohammad Ali Shaikh  
Nunavut Water Board,  
Technical Advisor
