Subject: Nottingham Island Remediation Project - New - Type "B"

Friday, November 08, 2013 2:39:11 PM Date: Attachments: 131003 1BR-NIR---- AANDC Comments-IAAE.pdf

Natalie Plato, P.Eng.

Director, Lands & Contaminated Sites (NRO)

Department of Indian & Northern Affairs Development

Dear Miss Plato:

Comments provided by AANDC on the Water Licence Application for Nottingham Island Remediation Project stated that there is a discrepancy between the fresh water consumption limit requested by the Applicant in the Application Form (20 m3/day) and the

fresh water consumption requested in the Supplemental Questionnaire (~6 m3/day).

NWB is going to proceed with the Application on the basis that the daily fresh water consumption for the Remediation Project is 20 m3/day. In case you have any concern related to this matter, please contact me by phone or email.

Regards

Sonia Aredes

Natalie Plato, P.Eng. Director, Lands & Contaminated Sites (NRO) Department of Indian & Northern Affairs Development Dear Miss Plato:

Comments provided by AANDC on the Water Licence Application for Nottingham Island Remediation Project are attached.

Regarding AANDC comment #3, please, could you clarify the following topics?:

- 1) the amount of daily fresh water consumption requested for this Remediation Project.
- 2) and what construction activities will require the use of water and how the water will be managed to prevent any contamination of surrounding water bodies?

Regards

Sonia Aredes
