Subject: Licence No. 1BR-NIR1419 – Review of 2014 Annual Report

Dear Ms. Lamontagne:

The Nunavut Water Board (NWB or Board) has completed the review of the 2014 Annual Report (Report) submitted by the Department of Indian Affairs and Northern Development (DIAND), on March 3, 2015. The Report was submitted in order to satisfy relevant requirements under Licence 1BR-NIR1419 issued to allow for the use of water and deposit of waste in support of the Nottingham Island Site Remediation Project located within the South Baffin Region of Nunavut.

With the submission of this Report, the Licensee has satisfied condition under Part B, Item 1 of the Water Licence for the year 2014. However, the Board notices that Annual Reports for years 2015, and 2016 have not been submitted yet. The Board would like to remind the Licensee that the Regulations, under s.14, include a legislated requirement for all licensees to submit an annual report to the Board. Furthermore, Annual Reports are for the purposes of ensuring that the NWB has an accurate annual update of Project water use and waste disposal during each reporting year.

Copies of the 2014 Report which was distributed to the public for information purposes are available at the NWB Public Registry using the following link:
