Cc: Licensing Department <licensing@nwb-oen.ca>

Dear Charlotte Lamontagne:

On August 24, 2015, the Nunavut Water Board (NWB) invited interested parties to review Aboriginal Affairs and Northern Development Canada's (Licensee)'s submission of a document entitled *Memorandum, Nottingham Island Site Remediation - August 2013 Surface Water Sampling Results* dated September 20, 2013 in order to satisfy requirements under Part K, Item 2 of water licence No. 1BR-NIR1419.

Interested parties were asked to review the submitted document and provide comments by September 24, 2015. AANDC Water Resources Division, provided the following comment:

"The department's Water Resources Division does not agree with the proponent's claim that the submitted August 2013 surface water sampling results satisfy the Part K, Item 2 licence requirement."

The NWB agrees with AANDC - Water Resources Division comment's and concludes that the Licensee should resubmit a Surface Water Monitoring Plan in order to satisfy Part K, Item 2 of the Water Licence.

AANDC - Water Resources Division's submission is attached to this email for your information

I would be glad to answer any question about this subject

Regards

Sonia Aredes
