Subject: RE: LAND USE PLAN CONFORMITY DETERMINATION – PIN-E CAPE PEEL REMEDIATION PROJECT

Good afternoon Mr. Yetman

Thank you for your email requesting a conformity determination (CD) for your proposed project as listed above. The Nunavut Planning Commission (NPC) conducts these CD's only against approved land use plans. Currently the NPC has two regional land use plans that are approved. One located in the North Baffin region and the other located in the Keewatin (Kivalliq) region. Your proposal is located outside both of the approved regional planning boundaries, therefore is not required to be reviewed by the NPC.

Any further questions please do not hesitate to contact me directly at 867 857 2242.

Brian Aglukark, NPC
Arviat
