Subject:
DEW Line Monitoring Program – CAM-4 Recommendations Review

Date:
30 October 2018

Dear Ms. Street:

Arcadis has reviewed our Final CAM-4 Monitoring report, dated 31 March 2017, as well as the EWG comments letter received, dated 15 August 2017. Upon review of the site photographs and field notes in our CAM-4 report, Arcadis concur with the findings of the EWG.

Regarding the Tier II Disposal Landfill at CAM-4, we retract our recommendation for additional shortened-timeframe monitoring and agree that Feature K can be treated as 'acceptable'. We suggest that this landfill be reviewed under the current Year 2021 monitoring schedule in order to re-assess Feature K.
