Subject: Water Use License Application
Hi Rita,

I was wondering if the application forms for a Water Use License are generic, or if there are different forms depending on the types of land use activities occurring on site? The reason I am asking is that we have received the forms for initial site investigation activities at 3 former DEW Line sites for this summer, and we will also be applying for 2 other sites where clean-up activities will be occurring. The clean-up activities are typically more involved and require up to 2 years to complete the work (summer months only). If you could let me know, that would be great.

Thanks,
Eva
