Hi Richard,

The NIRB is exempt from screening this renewal under section 12-2 (2) of the NLCA. This project was last screened in 2002 as an application for a Land Use Permit on their quarry under the screening number 02QN121.

Thank you for following up on this file.

Good afternoon;

I'd like confirmation from Nunavut Planning Commission does this project require a conformity review, and confirmation from NIRB that this project has been screened or screening isn't required.

Thanks Y'all
