Subject: Defense Construction Canada Ltd. – Request for Screening – New

The Nunavut Water Board received a new permit application from Defense Construction Canada Ltd. on March 22, 2001 for water use and waste disposal associated with a remote camp and clean up of the former CAM-4 Pelly Bay Distant Early Warning (DEW) Line site.

In accordance with Articles 12 and 13 of the *Agreement Between the Inuit of the Nunavut Settlement Area and Her Majesty the Queen in Right of Canada*, this project shall be screened by the Nunavut Impact Review Board to determine whether it has significant impact potential, and whether it requires review, before the application can be processed by the Nunavut Water Board.

I am sending just the water licence part of the application. The entire application is contained in a 3-inch binder and includes the following material in addition to the water licence application:

- Appendix A: figures
- Appendix B: project descriptions
- Table 1: location and operational status of DND Dew Line Sites
- Figure 1 and Figure 2
- "Environmental Protection Plan" Draft
- "Agreement Between Nunavut Tunngavik Incorporated and Her Majesty in the Right of Canada as Represented by the Minister of National Defence."
- "Detailed Hydrocarbon Evaluations"
- "POL Spill Contingency Plan"
- "Design and Cost Estimating of the Clean Up of 21 Dew Line Sites"
- "1997 Dew Line Site Assessment Observations"
- "Proposed Landfill Monitoring Plan"
- Appendix C: Barrel Protocol
- Appendix D: Environmental Screening Report
- Chapter 1
- Annex 1-A: DND/NTI Agreement
- Chapter IX: Environmental Screening Report
- Annex IX-A: Project Registration and Environmental Assessment Review Process Form for Pelly Bay, Cam -4

If NIRB has not already received this entire 3-inch binder, please let our office know immediately, and we can send a copy to your office by freight tomorrow.

In correspondence from NIRB dated February 6th and 27th, 2001, it appears that the NIRB Board has notified the Minister that the DEW Line clean-up requires review under Part 5 or 6. Please verify in writing whether this application requires screening or what the status of this application will be.

Sincerely,
