Re: 1BR-PEL0510 CAM-4 Renewal Application

Dear Ms. Beaulieu,

The Kitikmeot Inuit Association (KIA) has reviewed the submitted documents and information regarding the renewal application. Although the KIA has no concerns with the proposal, we would like to make the following suggestions:

The proponent should:

- Inform the affected community(ies);
- Hire local Inuit wherever and whenever possible;
- The KIA would also like to suggest that the monitoring program be used as a scientific and technical teaching opportunity for high school students in Kugaaruk. A combination of on-site and class-based teaching would provide students with an excellent opportunity to learn more about environmental protection, remediation and monitoring, and to expose students to career opportunities in the environmental field.

The KIA would like to thank the NWB for the opportunity to comment on this file. Please contact us if you have any questions.

Sincerely,

Luigi Torretti, M.Sc., B.Comm.

Senior Environment Officer Kitikmeot Inuit Association

Department of Lands, Environment & Resources
