Subject: Defence Construction Canada; Submission of an Abandonment and Reclamation Plan for the CAM-4 Pelly Bay DEW Line Site; Licence 1BR-PEL0510

Dear Ms. Schultz;

The Nunavut Water Board ("NWB") would like to acknowledge the receipt of the above document under Part I, Item 1 of Licence 1BR-PEL0510. The Abandonment and Reclamation Plan was distributed upon receipt for review and comment to interested persons with a submission deadline of March 13, 2006.

The technical review of the Abandonment and Reclamation Plan has been completed. Comments on the Plan were received from Environment Canada (EC) and should be reviewed by the Licensee. The Board has taken into consideration the information submitted and comments received from EC and found that the Plan does not sufficiently meet the requirements as set out in the License. The Licensee is instructed to resubmit within sixty (60) days of the date of this letter, a revised Abandonment and Restoration Plan that addresses the following:

1. Inclusion of a title page with the Licensee's name and the date prepared, the name of the person who prepared the document and its effective date;
2. Inclusion of a table of contents;
3. The plan should be site-specific and clearly discuss all the necessary remediation activities at the DEW line site;
4. An introduction to the plan including a brief description of the DEW line site and its coordinates;
5. Description of seasonal abandonment procedures;
6. Description of the post-closure monitoring program;
7. A schedule of remediation activities and expected completion dates;
8. Inclusion of a plan for final site inspection and documentation.

Should you have any further questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Deon Bridge
Technical Advisor
