Dear Ms. Becker:

RE: FOX-5 Water Use Licence

nwB5Q1K

We received your letter dated August 10, 2001 regarding the requirement for a public hearing as a result of concerns raised by the Hamlet of Qikiqtarjuaq over some components of the DEW Line Clean Up Project at the former FOX-5 DEW Line site. On behalf of Defence Construction Canada, we would like to request that the application be put on hold until further information can be gathered to address the issues identified by the Hamlet. When the issues raised by the Hamlet have been addressed, appropriate changes will be made to the application and submitted to the Nunavut Water Board.

If you have any questions or require clarification, please contact the undersigned.

Sincerely,

UMA ENGINEERING LTD.
