**Re: Application for *Site Investigation of Qikiqtarjuak (Broughton Island)*  
*Fox 5 DEW Line Site- Defense Construction Canada (NWB5QIK)***

The Nunavut Water Board (NWB) is processing the Defense Construction Canada's water license application (NWB5QIK) for the Site Investigation of Qikiqtarjuak (Broughton Island) Fox 5 DEW line site. In response to NWB's public notice of the new project that was advertised in Nunatsiaq news and local communities on April 10, 2001, the NWB received the attached submissions from the Hamlet of Qikiqtarjuak. Concerns were expressed regarding the water drainage in and around the proposed landfill site, as well as the necessity of stand-alone water/sewage services for the construction camp.

If you have any comments or additional submissions, please do so in writing before Friday June 28<sup>th</sup> 2001 after which date the Board will make its decision.

Sincerely,

Rita Becker  
Licensing Administrator
