Subject: Defence Construction Canada; Submission of 2003, 2004, 2005, and 2006 Annual Reports for the FOX-5 Broughton Island DEW Line Site; Licence 1BR-QIK0712

Dear Ms. Schulz;

The Nunavut Water Board ("NWB") acknowledges the receipt of the above documents under Part B, Item 1 of Licence No.1BR-QIK0712.

The technical review of the Annual Reports has been completed. The Board has taken into consideration the information submitted and hereby accepts the above Annual Reports. During the review of the Reports several issues were identified that will need to be corrected in all future annual reports;

1. The monthly and annual quantities (in cubic meters) of material deposited in the Solid Waste Disposal Facilities. The annual reports simply mention capacities- this is not sufficient information and shall mention the actual volumes placed monthly;
2. Tabular summaries of all data and information generated under the "Surveillance Network Program.";

It was also noted during the technical review that the 2007 annual report has not been received by the NWB. The Licensee shall, within thirty (30) days of the date of this letter, submit to the NWB the outstanding annual report.

Should you have any further questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Deon Bridge
Technical Advisor
