Dear Deon:

Re: 2003, 2004, 2005, 2006 and 2007 Annual Reports for License 1BR-QIK0712

UMA Engineering Ltd. is providing the following clarifications to the comments in your letter dated November 7, 2008 regarding the above-noted annual reports. The clarifications are being provided on behalf of Defence Construction Canada (DCC) and the Department of National Defence (DND).

The annual reports provide the quantities of materials placed within the facilities, which is stated in the annual report. The volumes are not the capacities of the facilities, as you have noted. The volumes provided in the 2006 annual report were the final quantities placed within the facilities, which were closed in 2006 upon completion of the clean up work and are no longer in use. Data and information generated as part of the landfill monitoring program (details of which were provided to the NWB on May 23, 2007) were provided in the 2007 annual report, which was submitted to the NWB on July 21, 2008 by DCC.

We trust the information provided is sufficient. Please feel free to contact the undersigned, or Douglas Craig with DCC (T-613.998.7288) if you have any additional questions or comments.

Sincerely,

UMA Engineering Ltd. doing business as AECOM

Eva Schulz, P.Ag.
