Calgary, AB T 2N 3S3

**Subject: Spill Contingency Plan FOX-5 DEW Line Site**

Dear Ms. Schultz:

Please be advised that the Nunavut Water Board (NWB) has reviewed the "Contingency Plan for the FOX-5, Broughton Island DEW Line Site" (dated July 2003) which was submitted to the Board in accordance with Part G, Item 2 of water license NWB5QIK0207. Following an internal and public review of the document, only minor concerns were raised by Environment Canada and the Department of Indian Affairs and Northern Development (DIAND) regarding the submitted Plan. Accordingly, the Board has approved the submitted Plan (Motion # 2003-47), with the requirement that the following information be submitted as an Addendum to the approved Plan 30 days prior to the commencement of on-site works:

1. A site map which clearly indicates the location of all spill control equipment, as well as MSDS sheets;
2. The contact information for the Site Supervisor;
3. The minimum standards for training for on-site personnel, including contractor and sub-contractor personnel; and
4. An inventory of additional spill response equipment and personnel available from the Hamlet of Qikiqtarjuaq.

Please feel free to contact me at your convenience if you have questions.

Sincerely,

***Original signed by:***
