Hi Richard

can we speak on the phone but the short answer is yes

I have dealt with the water board for many years now and I understand how it operates

and why. I have also done a lot of work for PPD.

There have been so many new faces who do not know the north or the people.

I have tried to work with the guy at PPD but he does not take advice and he does not understand there are rules that must be followed.

Until they do things correctly I really don't want to be listed on the license as someone who makes the decisions when I do not.

my cell is 867 222 4111

thank you

JIM

Good morning Jim,

Are you requesting you and Nunatta Environmental Services Inc. be removed from the cover letter of the water licence, the Nunavut Water Board understands Nunatta as the consultant, the water licence is in the name of Petroleum Products Division - Government of Nunavut.

Regards,

Richard

Good Day Richard

I received the notice about the Rankin Inlet landfarm inspection report 1BR RAN2131 and would like to speak with you about having my name removed from it.

I assisted PPD with the Planning Commission and some of NIRB applications and wrote a rough copy of the NWB application so it was possible to get it transferred from CGS to PPD.

Since then there have been many changes in management at PPD.

I don't feel comfortable being associated with the landfarm water licence at this time as there are many deficiencies not being addressed which I feel are important to the operation of the facility.

I am available by phone if you require any further information

Thank you

JIM
