VIA: E-mail

Dear Ms. Filiatrault

The water licence held by Indian and Northern Affairs Canada for the clean up of Resolution Island expires today. A renewal application has been submitted, but it is our understanding the Nunavut Water Board (NWB) will not be ready to issue the licence for at least another week.

For this reason, I would like to request the Nunavut Water Board grant an extension to the current licence for the period of time until the renewed licence is issued. This will ensure that clean up activities can continue and remain in compliance with the water licence.

I look forward to your response and if I can provide any further information please contact me.

Sincerely,
