To: Assol Kubeisinova <assol.kubeisinova@nwb-oen.ca>

Good Morning Assol,

Kelly forwarded your e-mail to me as I'm currently looking after this file while Holly Poklitar is away. It is my understanding that she will resume her role as project officer as of April 1, 2019. Although I'm not terribly familiar with the history of this project, I was able to find in our records our Annual Report submission for 2015, please see attached. Unfortunately, I'm not able to find a record for the 2017 Annual Report, however, I can see from the records that TC did not undertake any on-site activities in 2017, therefore there wouldn't have been anything to report on.

Attached please find the 2018 Health and Safety Plan which contains the updated Spill Contingency Plan (Page 31).

In regards to the sewage lagoon, Transport Canada is not the owner/operator of the lagoon and it is not part of the project scope for the Landfill Remediation. It is our understanding that it is still in operation and the airport operator would be the appropriate contact for any questions regarding the lagoon.

Sincerely,

Jackie Barker

Subject: 1BR-RBL1419 water licence renewal

Dear Kelly Hunnie,

I am writing to you in regards to Transport Canada's recent application for the renewal of licence # 1BR-RBL1419 (Resolute Bay Landfill).

During the preliminary review, NWB identified a number of outstanding items:

- annual reports are provided for 2014 and 2016 only;
- the updated spill contingency plan incorporating intervener comments due March 31, 2015 is absent.

Could TC please provide the missing documentation to allow NWB move forward with the licensing process?

In addition, could you please clarify the status of the sewage lagoon at the solid waste landfill (APEC 1)? Is it currently in use? Is itTC's plan to remediate the facility?

Thank you,

Assol Kubeisinoва-
