Re: Resolution Island Environmental Site Clean-Up

The Nunavut Water Board received an application for a water license renewal from Indian and Northern Affairs Canada for environmental site clean-up

Notice of this application will be posted at local organizations in Iqaluit and Kimmirut.

The following documents are available through the internet on our **NEW** ftp site at <ftp://ftp.nunavut.ca> in the folder "nwb" and sub-folder "**NWB5RES**":

- notice (in English and Inuktitut)
- application form
- supplementary questionnaire
- maps
- summary in English and Inuktitut
- Environmental Screening Report
- Spill Emergency Plan
- Project Summary Drawings
- Annual Report (with Summary of 2002 Activities and Scientific Investigations 2002)

Take note that the NWB has also received technical submissions along with this application. The Annual report was submitted in March 2003 and is available on our ftp site for consideration at this time. Please review these documents as necessary and forward any comments to this office before the deadline indicated.

**NWB5RES9803** does not fall within an approved land use plan; therefore conformity review by NPC was not required. The project is currently screened by NIRB, and can then be processed by NWB. Parties involved in NIRB's screening can send their comments directly to NIRB as per their instructions. For all other parties, the Nunavut Water Board is accepting written concerns and comments with regards to this project before **July 2, 2003**.

Sincerely,

***Original signed by:***

Rita Becker  
Manager of Finance, Licensing, and Administration
