Subject: Resolution Island comments

Hello Rita

This is just an email to request for a small extension for the comments on Resolution Island water licence application because of the interruptions moving has had on me and my work. I've gone through the project, and I don't have any real significant concerns, but I will provide a more formal response with specific little details next week. I would appreciate an extension to next Wednesday, but I will try to have a response for you ASAP.

Thanks for the understanding.

Anyway, I got to catch my flight to Ottawa now...

Enjoy your day.

Michael Roy
