Good Morning Phyllis,

Transport Canada (TC) is in the position to continue with the work at the Resolute Bay Landfarm application # 1BR-RLF. I would like to request that the application is considered active and the permit issued for this project. TC anticipates that the maintenance and operation of then landfarm will be initiated in the field season for 2015. If you have any questions or require additional clarification, please contact me.

Regards,

Mike Molinski B.Sc., B.Sc., E.P.
