**RE: 2016 Annual Report for Transport Canada Licence No. 1BR-RLF1520
Resolute Bay Land Treatment Unit**

Please find enclosed copies of the following:

- 2016 Project Summary (English);
- 2016 Project Summary (Inuktitut);
- 2016 Annual Report for the Resolute Bay Airport Land Treatment Units; and
- 2016 Environmental Monitoring Report - Resolute Bay Airport Land Treatment Units (ARCADIS, December 2016)

Transport Canada (TC) owns and operates two Land Treatment Units (LTUs) at the Resolute Bay Airport, Resolute Bay, Nunavut which are licensed by the Nunavut Water Board (NWB) Licence No. 1BR-1520, issued on August 17, 2015.

Part J Section 2 of Licence No. 1BR-RLF1520 requires 2 (two) annual sampling events, once after freshet and one at the end of the treatment season. As no treatment was applied, only one attempt at groundwater sampling was made. In August 2016, TC conducted an inspection of the facility and attempted to conduct groundwater sampling; however, there was not enough water in any of the 6 wells to obtain samples. Part B Section 3 requires posting signs in the appropriate areas to identify the stations of the Monitoring Program in the Official Languages of Nunavut; therefore, a trilingual sign was added to each well.

Please contact me by phone at (204) 688-3872 or by email at holly.poklitar@tc.gc.ca if you have any questions or require additional information.

Sincerely,

Holly Poklitar
