Subject: Re: 1BR-ROB0813 Roberts Bay Approved Licence

Dear Richard,

With the approval of the Roberts Bay Licence was a request by NWB for some additional information from INAC. This e-mail is to let you know that we are running a little behind on the submission of these information. INAC (with the assistance of PWGSC - our executing agent) is putting together the information and hope to send in the information in the next couple of days.

So far there has not been any work completed at the site because the barge was late getting to the region during the 2008 construction season.

If you have any questions or concerns please contact me.

Best Regards

Dele Morakinyo
