Re: Extension Request for Indian and Northern Affairs Canada – Contaminated Sites'
Land Use Permit with Indian and Northern Affairs Canada for their CAM F(Sarcpa Lake) DEW Line Remediation project

Dear Jeff Holwell:

On June 25, 2008 the Nunavut Impact Review Board (NIRB or Board) received an application from Indian and Northern Affairs Canada (INAC) for an extension to their Contaminated Sites' (the Proponent's) Land Use Permit for their *CAM F* (Sarcpa Lake) DEW Line Remediation project.

The original application for the above project was received by the NIRB on April 11, 2005 from INAC. The project proposal was screened in accordance with Part 4, Article 12 of the Nunavut Land Claims Agreement (NLCA). On June 27, 2005 the NIRB issued a 12.4.4(a) screening decision to INAC allowing the proposed project to proceed subject to project-specific recommended terms and conditions.

The original NIRB screening file, 05DN054 is available from the NIRB's ftp site at the following link:

http://ftp.nirb.ca/SCREENINGS/COMPLETED%20SCREENINGS/ARCHIVE/2005_SCREENINGS/05DN054-%20CAM-F/.

After reviewing the information submitted by the Proponent, the NIRB has determined that the proposed extension does not *significantly* change the general scope of the original project activities. Therefore, NIRB is confirming that the original terms and conditions as those in the attached June 27, 2005 Screening Decision would continue to apply to the extended Land Use Permit.

If you have any questions or concerns, please do not hesitate to contact the NIRB's Assistant Technical Advisor Amanda Hanson at ahanson@nirb.ca, or by phone at 867-983-4615.

Sincerely,

Stephanie Autut Executive Director
