Thank you Natalie – I appreciate the clarification and will make note of the submission. I believe it was the initial monitoring plan that was approved as per the letter from Don Carr, however we did receive an updated plan with the 2009 annual as well and all it requires is an internal review.
Best regards,

Good Afternoon Ms Beaulieu:

As per the attached letter, received from the NWB on February 2, 2010, the addendum to the Long Term Monitoring Plan required under Part J, Item 2 of the Licence was received as part of the Annual Report and was distributed for information on May 1, 2009. No comments were received specific to the Plan and the addendum was found to meet the requirements of the Licence and has been accepted by the NWB.
Please let me know if you require any further information.

Cheers
Natalie
