Equipment and materials were mobilized to the CAM-3 site in September 2005. The work involved construction of the camp facilities and setting of survey control points in preparation of the 2006 season. The camp was operational for one month. In that time, approximately 36 cubic metres of water was extracted from the water supply lake.

Approximately 29 cubic metres of effluent was discharged into the sewage lagoon; no samples were collected.

no interest

Al,

NWB 2005 Annual Report for 1BR-SHE0510 (previously NWB5SHE). Please review to determine the NWPP interest and respond by May 18, 2006.

Thanks

Jim
