Subject: Defence Construction Canada; Submission of 2005, 2006, and 2007 Annual Reports for the CAM-3 Shepherd Bay DEW Line Site; Licence 1BR-SHE0510

Dear Ms. Schultz;

The Nunavut Water Board ("NWB") acknowledges the receipt of the above documents under Part B, Item 1 of Licence No.1BR-SHE0510.

The technical review of the Annual Reports has been completed. The Board has taken into consideration the information submitted and hereby accepts the above Annual Reports. During the review of the Reports the following issue was identified that will need to be corrected in all future annual reports;

1. The monthly and annual quantities (in cubic metres) of material deposited in Solid Waste Disposal Facilities. The reports listed the volume of soils placed in the landfarm but should also list the quantities of construction waste, household solid waste, tier II soils and all other wastes landfilled monthly and annually;

Should you have any further questions, please feel free to contact me at (867) 360-6338, at your earliest convenience.

Yours truly,

Deon Bridge
Technical Advisor
