---

Good morning Mr. Morakinyo,

Thank you for your email.

Based on the information contained in your email below, NPC has determined that the proposed project as described is located outside the boundaries of the two approved land use plans currently administered by the NPC.

No further review is required by the NPC at this time.

Please contact me should you have any questions.

Sincerely,

Christopher

Christopher Tickner MCIP, RPP

Dear Mr. Tickner

Aboriginal Affairs and Northern Development Canada (AANDC- formerly INAC) is planning to remediate the former Intermediate DEW Line Site at CAM-A (Sturt

Point) located at coordinates (68°47' N, 103°20' W) which is about 80 Km East of Cambridge Bay, Kitikmeot Region, Nunavut.

Please accept this as a formal request for written confirmation that the CAM-A (Sturt Point) Project does not require a land use conformity determination under NLCA Article 11, as it falls within the Kitikmeot region, which does not have an approved Land Use Plan.

This written confirmation is required for the Nunavut Water Board (NWB)'s licensing process.

Thanks for your cooperation.

Sincerely

**Dele Morakinyo**
