A mobile biomedical waste incinerator installed in a 20' intermodal container will be located at QE's Environmental Waste Processing Facility. Biomedical waste from the Iqaluit General Hospital, especially, but also from several community Health Centers, etc. will be incinerated at QE's lot. This comes after the Hospital had to decommission its incinerator in 2019. Their location is not adequate for an incinerator as it is located in a residential area. Disposal of biomedical waste in southern facilities is very complicated and costly. Incineration within the community is a more environmentally-friendly and economic solution for all.
