

Application for Assignment**Duval River Crossing – Licence No. 1BW-DUV1214**

The current application for assignment is to transfer Licence No. 1BW-DUV1214 to the proposed Assignee, the Hamlet of Pangnirtung. The crossing was constructed in October 2009 by Fisheries and Oceans Canada to facilitate the construction of the Pangnirtung Harbour Construction project. The harbour construction project was completed in September of 2013.

The Duval River Crossing consists of metal culverts as well as rock and gravel fill. The river crossing is the only means of passage between the municipal quarry and the Hamlet of Pangnirtung for heavy construction equipment. The Hamlet of Pangnirtung has indicated their intent to accept the transfer and future responsibility for the Duval River Crossing.
