Good afternoon Rick,

The decision on whether to go ahead with reviewing Fisheries and Oceans Pangnirtung Harbour project would most likely depend on the alteration of waterbodies through the marshaling areas. Below is the location on our ftp site to the NWT Water Regs which currently apply in Nunavut. The Username is 'Public', Password is 'Registry'.

<ftp://nunavutwaterboard.org/ADMINISTRATION/Acts> Regulations/

Schedule IV (Industrial Undertakings) of the NWT Water Regs would apply. I recommend that you look at Schedule IV to see if any of the criteria require a Licence. Should a Licence be required, Richard Dwyer will be able to let you know the remaining administrative requirements. Should all of the project activities fall under Column II, I recommend you submit a request to withdraw the application.

I am available by phone or email should you have any remaining questions or if you would like additional assistance with determining whether a Water Licence is required.

Don

Subject: Pang Harbour contact

Hello Don,

thank you for your time today - any direction you can provide in regards to our project in Pangnirtung Harbour would be greatly appreciated

pls give me a call if you have any questions on the project

thanks

Rick Kiriluk
