Hi Shaun,

I am processing your request for the NWB Approval without a Licence and wanted to confirm the timelines before the document goes to the decision maker panel.

In the application you indicated that the construction will take place between July and September 2023. Is this correct or the plan is to do this construction in 2022?

Please keep in mind that Approvals without a Licence are only valid for one year, this is why the timeframes are critical.

Thank you,
