Subject

Application for the Approval for the Use of Water Without a License

Salutations:

Arcadis Canada Inc. would like to apply for approval for the use of water without a license.

Arcadis intends to collect a total of 7 surface water samples from ponded water bodies down-gradient of a former Transport Canada Landfill located in Iqaluit, NU (see attached Google image showing study area outline). The site is LOT 667, Iqaluit, 69309 CSLR NU.

The water usage will be a single collection event with a total of 0.021 m3 of water extracted via water samples. The work is to take place between September 26<sup>th</sup> and September 30, 2016.

The sampling is in support of an Environmental Site Assessment (ESA) of the site.

Sincerely,

Arcadis Canada Inc.

Ryan Fletcher, C.Tech, EP Sr. Environmental Technician Arcadis Canada Inc.

I have read and agree to comply with the following conditions outlined in sections 4(3), 5(4), 5(5) and 6 of the Nunavut Waters Regulations:

- In the case of an applicant who has a mineral right and who intends to use waters or deposit waste in relation to that right, the applicant shall respect the priority conferred on Inuit by section 62 of the Act as if that applicant had a licence for the use or deposit.
- Measures must be taken prior to using water to minimize any alteration to the bed or banks of a watercourse whose waters are to be used, and the measures shall be maintained during the operation of the undertaking.
- No waste is to be deposited to surface water or within 31 metres of the ordinary high water mark of any body of water.
- The waste shall not contain more than 15 milligrams per litre of petroleum or petroleum product and must not have a visible hydrocarbon sheen.
- Prior to the closure or abandonment of the undertaking or end of the period authorized for the use of water or deposit of waste without a licence, whichever occurs first, the site shall be restored — to the extent practicable — to the state in which it was before the water was used or the waste was deposited.a
- An applicant who is authorized under the Regulations to use waters or deposit waste without a licence shall:
  - maintain accurate and detailed books and records of:
    - the quantity of water, in cubic metres, used each day,
    - the quantity, in cubic metres, of waste deposited each day,
    - iii. the type of waste deposited each day,
    - where the waste is deposited,
    - the concentration of the substance, or substances, in the deposited solid or liquid that has the effect of making the deposit waste,
    - the methodology used to calculate or determine the information referred to in items (i) to (iv), and
    - the measures that were taken to avoid or mitigate any adverse impacts of the deposit of waste.
  - keep the books and records on the site of the undertaking during the period of its operation and make them available during that period to an inspector on request;
  - submit to the Board a report containing a summary description and supporting photographs of the restoration of the site of the undertaking within 30 days after the earliest of (i) the day on which the undertaking is closed or abandoned, and (ii) the last day of the period authorized for the use or deposit without a licence; and
  - keep the books and records for two years after submitting the report describing the restoration of the site of the undertaking.
