[OFFICIAL]

Good day,

Please see attached nine documents including an application letter and supporting documentation requesting the use of water without a license. This is a temporary authorization request to use a maximum of 49.99 cubic meters of water daily from the various lakes along the Chidliak Project winter trail route in 2025. The water will be used for the purpose of flooding any potential lakes, to increase the ice thickness and improve safety for travel during the winter months. There will be no disposal of waste and the water will be circulated from below the surface to the top of the ice.
