Subject: Assignment and Expiry of NWB4SOU9800

Dear Mr. Netser:

This is a reminder that your permit #NWB4SOU9800 for water use and waste disposal associated with Commercial Caribou Harvest for Tunnuq Harvest Ltd. on Southampton Island near Coral Harbour expires on January 26, 2000.

As indicated in Item 4.2 of the permit, a summary report of water use and waste disposal activities, abandonment and restoration of the site, list of unauthorized spills and follow-up actions needs to be submitted to the Nunavut Water Board annually and within 30 days upon expiration of this permit. To date, no reports have been received. Please submit the annual reports to the Nunavut Water Board as soon as possible and the final summary report before the end of February, 2000.

Should you wish to continue with the caribou harvest after January 26, 2000, you will need to file an application for renewal of this permit. Please allow 3 months for the renewal process. An application form with supplementary questionnaire can be obtained from our office by phoning or faxing us at the above numbers or by e-mailing a request to: nwblicence@hotmail.com.

We had received a request to assign the above permit to Southampton Island Meat Company on December 18, 1998. Assignment forms were forwarded to your office in the beginning of 1999, but the completed forms were never received by the Nunavut Water Board. Please note that NWB4SOU9800 is only valid for Tunnuq Harvest Ltd., and may not legally be used by Southampton Island Meat Company.

We recommend that the assignment forms be completed so that we can process the assignment, and that the application for renewal with supplementary questionnaire be submitted under the name of Southampton Island Meat Company as soon as the assignment is complete.

Please contact our office if you need assignment, application renewal forms, or supplementary questionnaire. As well, should you have any questions, please do not hesitate to contact us.

Sincerely,

Rita Becker
