RE: 2BE-BAR, Indicator Minerals Inc. Barrow Project, Kugaaruk, Nunavut

I have reviewed that comments in your letter dated May 1, 2007 regarding the Barrow Project application submitted to the Nunavut Water Board (NWB). I have revised the Environmental Procedures Plan (EPP), Spill Contingency Plan (SCP) and the Abandonment and Restoration Plan (ARP) that had been submitted with the application. I will address each comment in your letter according to the same format.

1. Wildlife

Caribou

1. Please see EPP page 5
2. Please see EPP page 5
3. Please see EPP page 6
4. Please see EPP page 6

Furbearers

Please see EPP page 6

Raptor Nesting Areas

Please see EPP page 6

Human-Bear Conflicts

Please see EPP page 5

Aircraft Disturbance

Please see EPP page 6

Recording Wildlife Observations and Critical Habitat

Please see EPP page 5

2. Spill Contingency

- Please see SCP page 8 for changes regarding spill reporting protocol and contacts.
- Please see Appendix 3 for MSDS sheets regarding type of fuels. There will be minimal fuels and chemicals stored at the drill site. Please see EPP page 7, and SCP page 4.
- At this time Indicator Minerals Inc. has not determined the drill site locations and if required a location for a fuel cache. This information will be submitted accompanied by a map.
- Please see SCP.

www.indicatorminerals.com

- Indicator Minerals Inc. will register with DOE regarding the movement of hazardous wastes.
- Please see SCP Appendix 2 and personnel will be instructed that when possible to enter the spill information electronically.

3. Abandonment and Restoration Plan

- Please see revised ARP

Thank you for your comments regarding the Barrow Project application, please do not hesitate if you have any questions or comments regarding the revisions in the Environmental Procedures Plan, Spill Contingency Plan or Abandonment and Restoration Plan.

Sincerely,

Johanna Tuck
