RE: FINAL-PLAN REPORT: LAND-USE PERMIT #N2001C0007 **KIKERK/KNIFE LAKE PROJECT**

I am pleased to enclose with this letter a Final-Plan Report on activity under Indian and Northern Affairs (INAC) Class A Land-Use Permit #N2001C0007, which has now been replaced with Permit #N2003C0037, effective 01 February 2004.

This letter and Final-Plan Report also are being supplied to the Nunavut Water Board (NWB) for their records, as NWB Type B Water Licence #NWB2KIK0002 was in effect during the life of Land-Use Permit #N2001C0007. INAC also will receive by post a hard copy of the Final-Plan Report and accompanying maps.

Thank you for the opportunity to make this submission. I trust that you will find all to be in order, but please feel free to contact me if you have any questions or require extra copies.
