Good afternoon Luc;

Should the licensee not submit any of the reports required in the licence they will be in contravention of the Nunavut Waters Act.

Richard,

How are things in the North?

I'm trying to put some pressure on True North Gems to file-in their paperwork for the permits and licences that they hold in Nunavut. Seems like they lost interest in their Baffin property in the economic downturn.

I am aware that there are penalties for not submitting the summary of work due at the end of March. Does TNG risk losing their licences?

Thanks for keeping me informed  
Luc
