RE: Water license/ Closure Inspection of Stornoway Diamond Corp MIP Project July 25, 2009

The following closure report is based on observations made during a fly over of the closed and abandoned camp site related to the Stornoway Diamond Corp MIP Project located in the Qikiktani Region of the Nunavut Territory

At the time of the Fly over the camp had been closed for approximately 2 years and the project License expired for approximately one year.

On July 25th, 2009 the Inspector had the opportunity to over fly the site.

Noted on site were 9 core racks. None of the remaining infrastructure associated with the camp was present on site.

It appears that the licensee has followed the A&R plan as submitted and approved by the Nunavut water Board.

The Inspector recommends that this file may now be closed.

Andrew Keim
